

Application Number:	2019/0899/HOU
Site Address:	311 Burton Road, Lincoln, Lincolnshire
Target Date:	4th January 2020
Agent Name:	Karaolides Szynalska Architects Ltd
Applicant Name:	Mr James Scott
Proposal:	Erection of single storey rear extension to be timber cladded and alteration of existing roof line to accommodate installation of dormer to rear.

Background - Site Location and Description

311 Burton Road is a two storey, detached property located on the north side of Burton Road. The house is set within extensive front and rear gardens and has residential properties on either side.

Permission is sought for a single storey rear extension, rear dormer window and three roof lights to the front elevation.

This application is brought before Planning Committee because the applicant is related to an employee of the City Council.

Site History

Permission was granted in 2018 (2018/0670/HOU) for a part two, part single storey rear extension. Demolition of the existing garage and erection of new single storey detached garage as well as the addition of a two storey front extension.

Case Officer Site Visit

Undertaken on 20th November 2019.

Policies Referred to

- National Planning Policy Framework
- Central Lincolnshire Local Plan – Policy LP26

Issues

- Visual Amenity and Design
- Impact on Neighbours
- Technical Matters

Consideration

Visual Amenity and Design

Policy LP26 'Design and Amenity' of the Central Lincolnshire Local Plan (2017) is permissive of extensions to existing buildings provided the siting, height, scale, massing and form relate well to the site and surroundings, and duly reflect or improve on the original architectural style of the local surroundings; and use appropriate high quality materials, which reinforce or enhance local distinctiveness, with consideration given to texture, colour, pattern and durability. In relation to both the construction and life of the development, the amenities which all existing and future occupants of neighbouring land and buildings may reasonably expect to enjoy must not be unduly harmed by or as a result of development.

The proposed rear extension would extend the length of the property and be timber clad with grey aluminium doors and windows. The extension would allow a modest extension to the kitchen and dining area.

To the front of the property it is proposed to insert 3 roof lights to allow the conversion of the roof space. The conversion would also require a dormer window to the rear of the property. This would be clad in the same timber as the ground floor extension. The dormer would accommodate an additional bedroom in the roofspace.

Residential Amenity and Impact on Neighbours

The property has residential dwellings to the adjoining boundaries. No objections have been received from these neighbours at the time of writing this committee report.

The application property sits within an extensive plot with a large rear garden, therefore the properties to the east would be of sufficient distance that they would be unaffected by the proposal. To the north and south the properties would have glimpsed views of the single storey rear extension but would have no impact on their current level of amenity. The proposed dormer window would offer additional views towards the rear gardens of the adjacent properties. However this is relationship which already exists from existing first floor windows and would not have a detrimental impact on the amenity currently enjoyed by the neighbouring residents.

Highways

The Highways Authority has raised no objections to the proposed extension.

Conclusion

The extensions are of an appropriate design and would be in keeping with the scale of the host property and the adjacent neighbours. There would be no impact on the amenity of the adjacent neighbours and as such it is considered that the proposed development would be in accordance with local plan policy LP26.

Application Determined within Target Date

Yes.

Recommendation

That the decision to Grant Conditionally is delegated to the Planning Services Manager subject to no further comments being received within the consultation period.

Conditions

- Development to be carried out in accordance with the plans
- Development to commence within 3 years
