Change of Q4 by 0.5 for lower and higher targets due to COVID impact Amount of claims have continued to climb qtr. on qtr. Targets reduced to be in line with last year but expectation is that it will be above last year. Targets have been made harder 2 years in a row. Supported by outturn Very small change to Higher Target per qtr. Driven by no CT Hardship fund this year. Low targets maintained Ongoing impacts of Covid-19 on revenues collections, also new relief effective from 2022/23. This is a small change and forecasting is very accurate. Targets lowered to take into account the longer term outturn. COVID is continuing to have long term effects and increased demand. New targets although lower (reduced) are still predicting an improvement in service levels from the	10	r I
