1 Assurance Definitions 2 2022/23 Audit Plan

Amanda Stanislawski – Audit Manager (Head of Internal Audit) Amanda.stanislawski@lincoln.gov.uk

This report has been prepared solely for the use of Members and Management of City of Lincoln Council. Details may be made available to specified external organisations, including external auditors, but otherwise the report should not be used or referred to in whole or in part without prior consent. No responsibility to any third party is accepted as the report has not been prepared, and is not intended for any other purpose.

The matters raised in this report are only those that came to our attention during the course of our work – there may be weaknesses in governance, risk management and the system of internal control that we are not aware of because they did not form part of our work programme, were excluded from the scope of individual audit engagements or were not bought to our attention. The opinion is based solely the work undertaken as part of the agreed internal audit plan.

## Introduction

The purpose of this report is to:

- Provide details of audit work during November 2022
- Advise on progress with the 2022/23 Plan
- Raise any other matters that may be relevant to the Audit Committee role

### Key Messages

Progress is being made on the current 2022/23 plan (Appendix 2). We have now completed 48% of the revised plan to date (including the 2021/22 work carried over).

We have seven pieces of work in progress, two at draft report stage and four in progress (Appendix 2). We are also involved in the co-ordination of the National Fraud Initiative which is taking place this year.

We have made one change to the revised plan which has resulted in one audit (Fleet) being removed and replaced by another (Housing Repairs) which was previously removed when the plan was revised in November. This will ensure that coverage remains sufficient to allow an end of year opinion to be made.

The team currently has two vacancies. The recruitment processes have been unsuccessful so far. The posts are currently being re-advertised. We have employed a temporary Auditor on a casual contract to cover some of the work and have obtained further resources from Assurance Lincolnshire. This will enable us to cover the work remaining within the work plan until the end of the Financial year. We will continue to monitor resources to ensure that the work can be completed both for the rest of this year and for 2022/23 with additional resources sought if required.

### Assurances

One assurance review has been completed:-

• ICT Programme and Project Management

A summary of the report is provided on the following pages.

Note: The assurance expressed is at the time of issue of the report but before the full implementation of the agreed management action plan. The definitions for each level are shown in Appendix 1.

## **Substantial Assurance**

There is a project plan in place and arrangements in place to monitor delivery through the Technology Pillar (TP) which has a Terms of Reference and meets regularly. Improvements are required to effectively manage individual projects and adhere to the Lincoln project Management Methodology (LPMM).

The projects monitored by the TP all link and a recent review by CMT of the priorities for the TP provides further confirmation that they are all key. We can confirm that the ICT programme does address Council objectives and that the ICT programme is being effectively managed.

The TP, led by the Director of Housing & Investment, oversees the Council's key ICT projects and meets regularly to review progress. Meetings are formal with minutes and action tracking and there are verbal updates to CMT.

The TP operates as a programme board but does not have any responsibility for operational aspects of projects or LPMM compliance – that is the role of the project sponsor / project board, etc. Our high level testing of LPMM compliance for the TP projects found that;

- All had a Project Lead and Project Sponsor
- A Project Board was in place (where appropriate)
- A Project Brief and Project Initiation Document had not been completed / could not be located in all cases
  - Inconsistencies in completing other project documents

The Project Initiation Document (PID) includes a section to consider the project management approach and this should be agreed by the Project Sponsor and Project Lead at the start of the project. The PID also requires oversight and sign off by the Project Sponsor at key points. We have recommended that management remind Project Leads & Sponsors that a Project Brief and a PID should be completed, as a minimum, for all projects.

The TP project schedule contains no indication of prioritisation; all projects appear of equal importance. The TP lead stated that projects are prioritised, but this is not recorded. We have recommended that management introduce a prioritisation process to ensure that resources / efforts can be directed to the most important projects / work areas.

One of the TP projects is delivery of the IT Strategy. A tool has been developed to monitor and deliver everything that the team is responsible for (projects, business as usual, etc) in a way that complies with LPMM, where required.

ICT Programme and Project Management

## **Substantial Assurance**

#### Summary of Recommendations:-

ICT Programme and Project Management

|          |                                | Agreed      |            | Due    |
|----------|--------------------------------|-------------|------------|--------|
| Priority | Recommendation                 | Action      | Owner      | Date   |
| Medium   | Management remind Project      | Ensure      | Director   | Oct-22 |
|          | Leads & Sponsors that a        | lpmm        | Housing    |        |
|          | Project Brief and a PID        | paperwork   | and        |        |
|          | should be completed, as a      | is complete | Investment |        |
|          | minimum, for all TP projects.  |             |            |        |
|          |                                |             |            |        |

|          | work areas.                    |             |            |        |

#### Audits in Progress

- Stores 21/22 Draft report
- De Wint Court Draft report
- Staff Welbeing Fieldwork in progress
- Climate Change Fieldwork in progress
- Housing IT First gateway review completed, others to be completed throughout the process.
- Combined Assurance In progress

#### Other work

- Recruitment process advertised externally and no applicants. Readvertised in different places and interviewed but not appointed. Readvertised again.
- NFI co-ordination and returns.

#### Amendments to the Audit Plan

Work Completed / In Progress There has been one further amendment made to the plan since it was revised in November. The Fleet audit has been removed and replaced with the Housing Repairs Audit

#### Audit work undertaken for Assurance Lincolnshire

Covering the Principal role for the South East Lincolnshire Partnership. One Audit in progress Levelling up Fund.

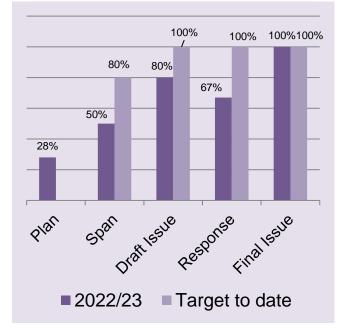

Internal Audit's performance is measured against a range of indicators. The statistics below show our performance on key indicators year to date.

## **Performance on Key Indicators**

## Rated our service Good to Excellent

## Other matters of interest

A summary of matters that will be of particular interest to Audit committee members

Currently no further matters of interest since the previous Committee.

| ŀ | Appendix 1  | Assurance Definitions   |
|---|-------------|---|
|   | High        | Our critical review or assessment on the activity gives us a high level<br>of confidence on service delivery arrangements, management of<br>risks, and the operation of controls and / or performance.  |
|   |             | The risk of the activity not achieving its objectives or outcomes is low.<br>Controls have been evaluated as adequate, appropriate and are<br>operating effectively.  |
|   | Substantial | Our critical review or assessment on the activity gives us a substantial level of confidence (assurance) on service delivery arrangements, management of risks, and operation of controls and / or performance.   |
|   |             | There are some improvements needed in the application of controls<br>to manage risks. However, the controls have been evaluated as<br>adequate, appropriate and operating sufficiently so that the risk of the<br>activity not achieving its objectives is medium to low.   |
|   | Limited     | Our critical review or assessment on the activity gives us a limited level of confidence on service delivery arrangements, management of risks, and operation of controls and / or performance.   |
|   |             | The controls to manage the key risks were found not always to be<br>operating or are inadequate. Therefore, the controls evaluated are<br>unlikely to give a reasonable level of confidence (assurance) that the<br>risks are being managed effectively. It is unlikely that the activity will<br>achieve its objectives. |
|   | Low         | Our critical review or assessment on the activity identified significant concerns on service delivery arrangements, management of risks, and operation of controls and / or performance.  |
|   |             | There are either gaps in the control framework managing the key<br>risks or the controls have been evaluated as not adequate,<br>appropriate or are not being effectively operated. Therefore the risk<br>of the activity not achieving its objectives is high.   |
|   |             |   |
