2. The 2021 Health and Care White Paper and establishment via the NHS of Integrated Care Systems (ICS) underline the vital importance of health and care partners working together to focus on prevention and addressing the wider determinants of health
3. Districts have timely opportunity to directly influence and shape the system approach to tackling wider determinants of health, ensuring services and functions are effectively linked at place and system level to deliver on district priorities
4. Integrated Care Systems are being designed to serve four key purposes:
 - **improving population health and healthcare**
 - **tackling unequal outcomes and access**
 - **enhancing productivity and value for money**
 - **helping the NHS to support broader social and economic development**
5. Districts have sought to address central questions around employment and jobs, place shaping, active and creative places, homelessness and participation in developing the strategy.

 - Diagnostic: benchmarking, governance mapping and system health check

7. Districts have developed the strategy around five 'lever' areas in which they are uniquely positioned in the system to influence and can most effectively articulate their offer and work with partners to deliver sustainable change.

8. For each lever area, districts have defined:

- An overarching objective, themes and strategic framework of activity and outputs for each lever area
- Supporting activities and outputs linked to each objective

9. Summary of overarching objectives and themes by lever area:
