General Information and Advice

Please note that although the Definitive Map and Statement proves the existence of any recorded rights of way, there may be further or higher rights that are not shown on this document that the County Council is not currently aware of. This would be especially relevant where the public has had informal access to the site or where there are references to routes across this in maps or other historic documents. Highway and Lead Local Flood Authority Report

Substantive Response provided in accordance with article 22(5) of The Town and Country Planning (Development Management Procedure) (England) Order 2015:

Recommendation: No Objections

Having given due regard to the appropriate local and national planning policy guidance (in particular the National Planning Policy Framework), Lincolnshire County Council (as Highway Authority and Lead Local Flood Authority) has concluded that the proposed development would not be expected to have an unacceptable impact upon highway safety or a severe residual cumulative impact upon the local highway network or increase surface water flood risk and therefore does not wish to object to this planning application.

Comments:

The proposal is for display of non-illuminated hanging signs to north and east elevations, nonilluminated entrance sign to east elevation and internal signage and it does not have an impact on the Public Highway or Surface Water Flood Risk.

As Lead Local Flood Authority, Lincolnshire County Council is required to provide a statutory planning consultation response with regard to drainage and surface water flood risk on all Major applications. This application is classified as a Minor Application and it is therefore the duty of the Local Planning Authority to consider the surface water flood risk and drainage proposals for this planning application.
